PROFILE

42 Vienna student with a C/C++ systems foundation and hands-on full-stack web experience in TypeScript, React/Next.js and Node/NestJS. Ten years in retail and sales in Austria — half in team-lead and IT / digital-marketing roles — before moving full-time into software development. Looking for a junior or Werkstudent role where I can ship real features and keep growing.

DEVELOPMENT EXPERIENCE

Full-Stack Developer — Final Team Project 02/2026 – present
42 Vienna Coding School · Vienna · team of 4

- Single-page app with a real-time multiplayer Snake game and chat. Stack: Next.js (frontend), NestJS (backend), PostgreSQL, WebSockets.
- Owned the **admin dashboard** (frontend + backend) and the **Terms & Privacy** flow (frontend + backend).
- Built the backend **WebSocket layer** and added **API rate-limiting / throttling**.
- Implemented full **internationalisation** — fixed and completed translations across **4 languages**.
- Also re-built the entire application **solo** and deployed it (Render). Code & live demo available on request.

Web Developer (project-based) 01/2026 – present
Armenian Diaspora School · Vienna

- Built and maintain the organisation's website on WordPress with custom HTML/CSS.
- Live: armeniandiasporaschool.wordpress.com

Software Developer (project-based) 12/2025 – 01/2026
Armenian Transliteration System · University of Vienna · Vienna

- Built a web tool that converts Armenian text into Latin transliteration, at the request of a University of Vienna staff member.
- Client-side web app, deployed on GitHub Pages.
- Live: armtransliteration.github.io/ArmTransliteration

Personal portfolio — ghrafayel.github.io 2025 – present

- Single-page React app: React + Vite, Tailwind CSS, Framer Motion, and interactive 3D scenes with Three.js / React Three Fiber.
- Responsive, dark / light theme; deployed via GitHub Pages.

42 systems projects (C / C++) 09/2024 – present

- webserve (HTTP/1.1 server), minishell (Unix shell), Philosophers (threads & mutexes), cub3D (raycasting engine), push_swap, minitalk, ft_printf, CPP modules — github.com/GhRafayel

EARLIER CAREER — RETAIL & SALES, VIENNA
